

**Welcome to Asia**  
**Home to Half of the World!**

**By: Dr. Wilson Huang**  
**VACA President**

From a distance, the culture and people of Asia may seem strange and different. However, when you visit Asia, you find that Asians are very much similar to people here in Valdosta. Like Americans, Asians have strong societies rich in tradition, value and education. They too treasure their families and possess a sincere sense of caring, giving and peace. Similar to people in South Georgia, Asians hold well-built work ethics, enjoy leisure activities and have firm faith in their religions. But many Asian traditions and customs differ from those of America in uniquely wonderful ways. Asia is our world neighbor, and we can certainly benefit from getting to know its people through a better understanding of their cultures, customs, arts, technology and other opportunities there.

It is our great pleasure and honor in hosting you, our guests, at the Asian Cultural Experience. Come tour our exhibits and be dear friends of Asia.
